

# Meeting of European SIAM Chapters 2017

August 28–30, 2017

Faculty of Mathematics and Physics

Charles University

Prague, Czech Republic

Meeting of European SIAM Chapters (MESIAM-2017) is a continuation of the annual meetings of German SIAM Chapters and for us is a great opportunity to bring together all Chapters of "the Old Continent". Since there are currently **27 Chapters in Europe**, we believe that this event can serve as a foundation for cooperation between students of applied mathematics across Europe.

The meeting will be comprised of **scientific sessions** (invited lectures and contributed talks), as well as of social events. We will also organize a **SIAM Student Chapter panel**, where you can share your experience as SIAM SC officers and discuss possible future collaboration in this field. As our motto states: *Knowledge is nothing if not shared.*

## Important Dates

Deadline for abstracts:  
June 30, 2017

Student dormitory:  
May 28, 2017

Online registration starts:  
July 1, 2017
